Setup and display of graphs

Chiclet chart for selected organization

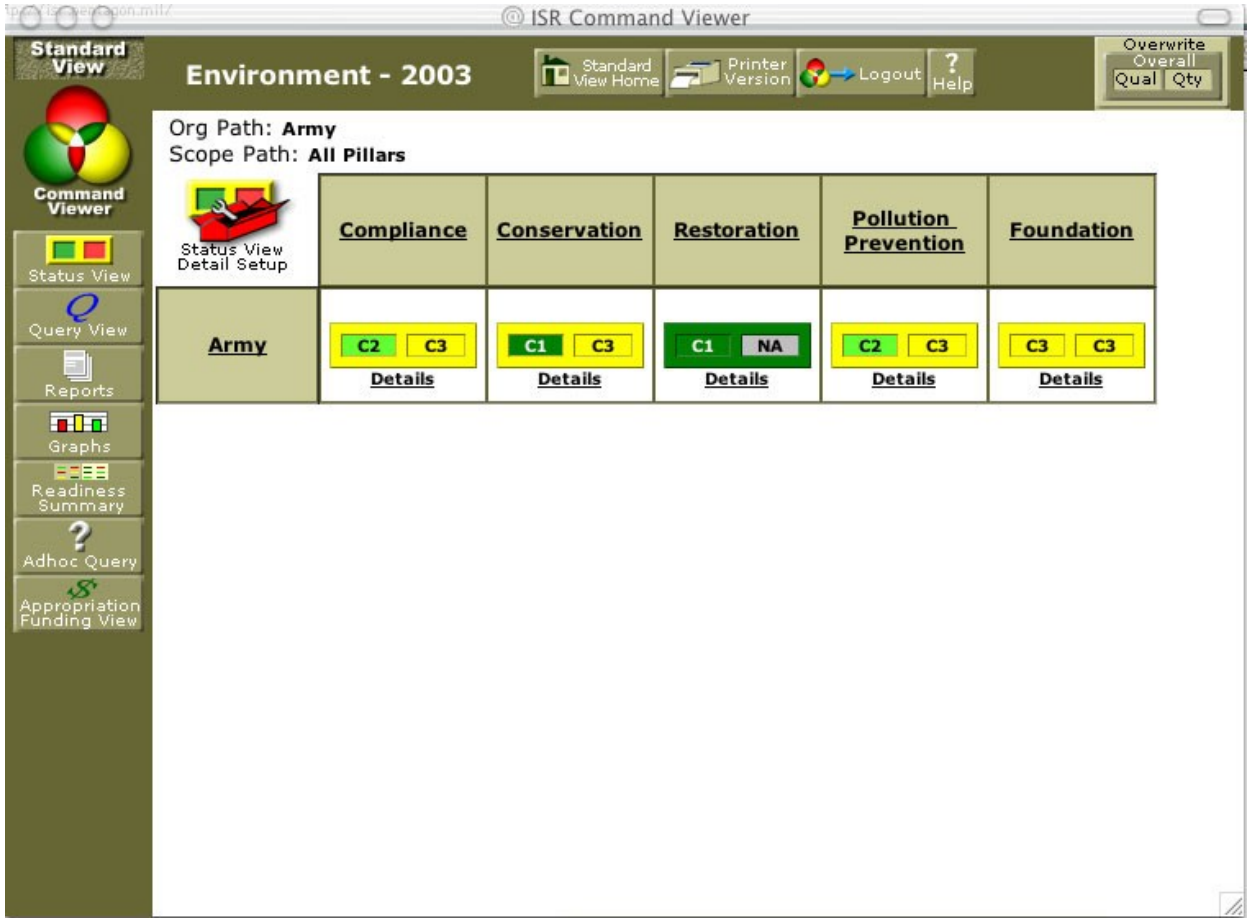
Customized queries for extracting ISR Data and importing to other applications

Displays funding data for selected organization and scopes

Processing Current Year Data. Not visible for all accounts

Status View

The Status View is the screen that displays the organizational and scope ratings data. Drilling down to reveal subordinate organizations and scope levels or using the Status View Detail Setup will allow users to create Status Views that contain their specific organizations. Ratings data is displayed in the form of C-Ratings Chiclets.



Query View

Query View

Query views are customized status views that allow users to pick and choose the organization and scope elements they desire in their views.

Query View
Query View allows you to design a modified status view consisting of selected organizations and scope items. The resulting status view allows you to compare the C-Ratings of the selected organizations for the selected scope items. For example, you can create a status view containing ARMY, Southeast Region and Fort Bragg, and Compliance Pillar and Air Quality Management, Hazardous Material Management and Environmental Noise Media.
Query By Selected Scope Level
Query View by Selected Scope Level allows you to design a chiclet display for a selected organization and scope item consisting of all C-Ratings for a selected scope level subordinate to the selected scope item that meet selected ratings criteria. For example, All Media under the Compliance Pillar that have quality ratings of C1 or C2 for Korea.
Query By Selected Organization Level
Query View by Selected Organization Level allows you to design a chiclet display for a selected scope item and organization consisting of all C-Ratings for a selected organizational level subordinate to the selected organization that meet selected ratings criteria. For example, All Installations under Europe that have quality ratings of C1 or C2 for the Air Quality Management media.

Reports

Clicking this button will produce a series of setup screens that allow you to select the type of report and organization and scope details you want to include in the report.

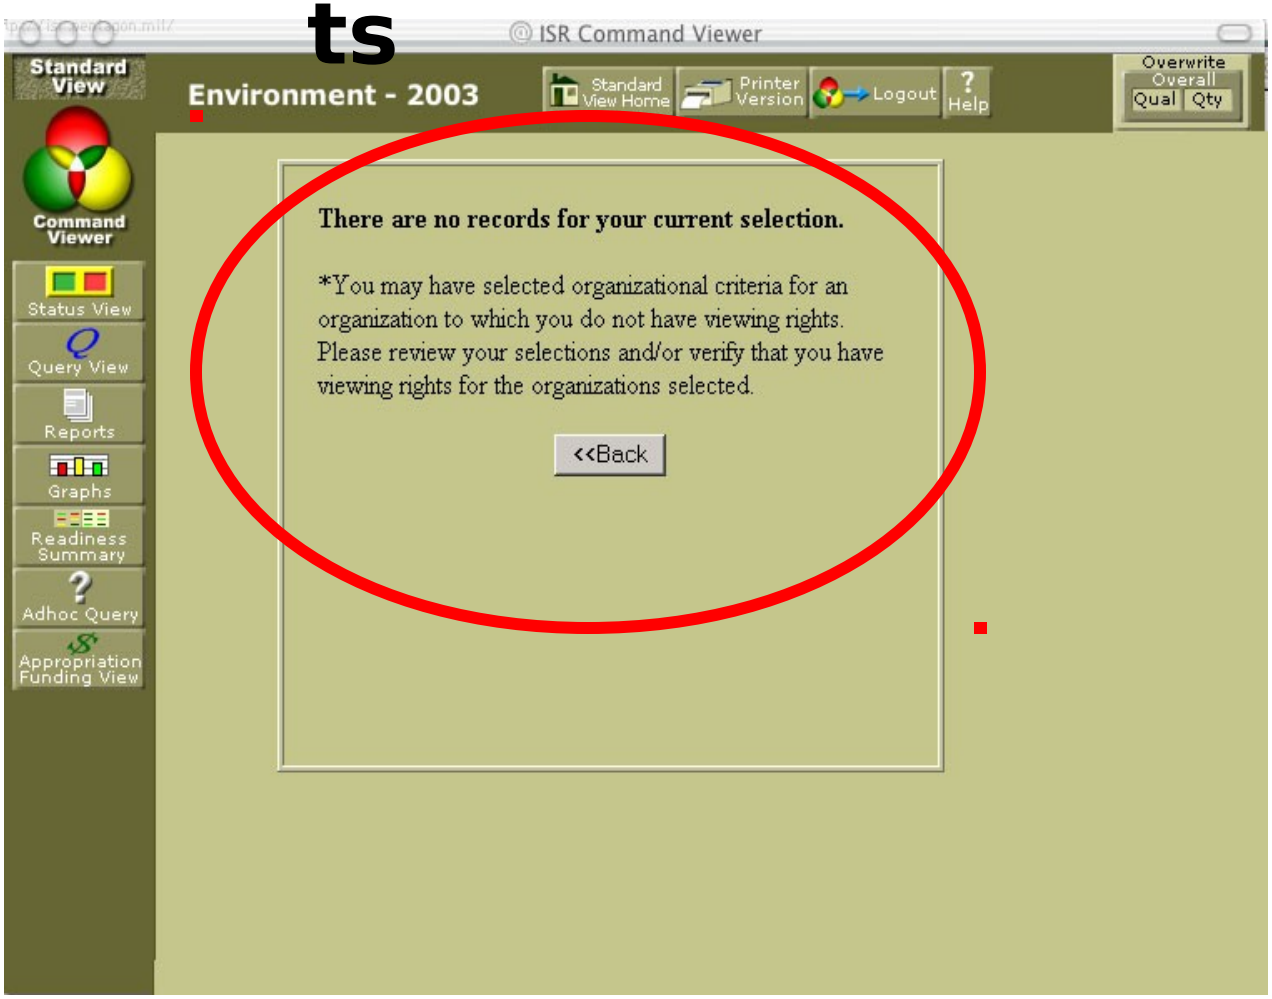
Description
The Summary Level – Status report can be created to view quality, quantity, overall and overwrite C-Ratings for selected command organizations and scope levels.

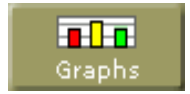
Reports



No restrictions on org selections, but…

If no data is present or an org has been selected for which you don't have viewing rights the displayed message appears

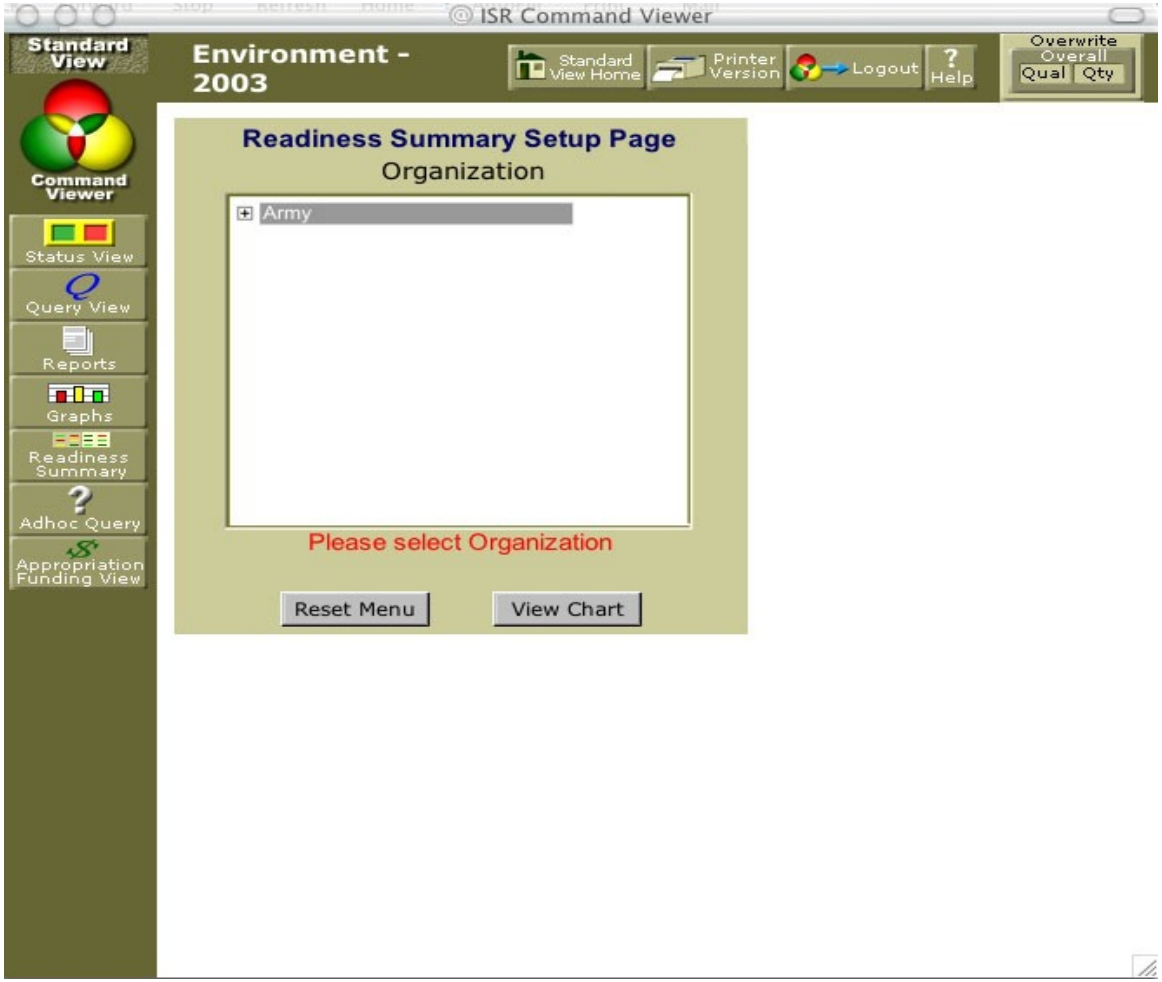
Graphs



Clicking the graph button will produce a series of setup screens that allow you to select the graph, organization and scope details you want to include in the graph.

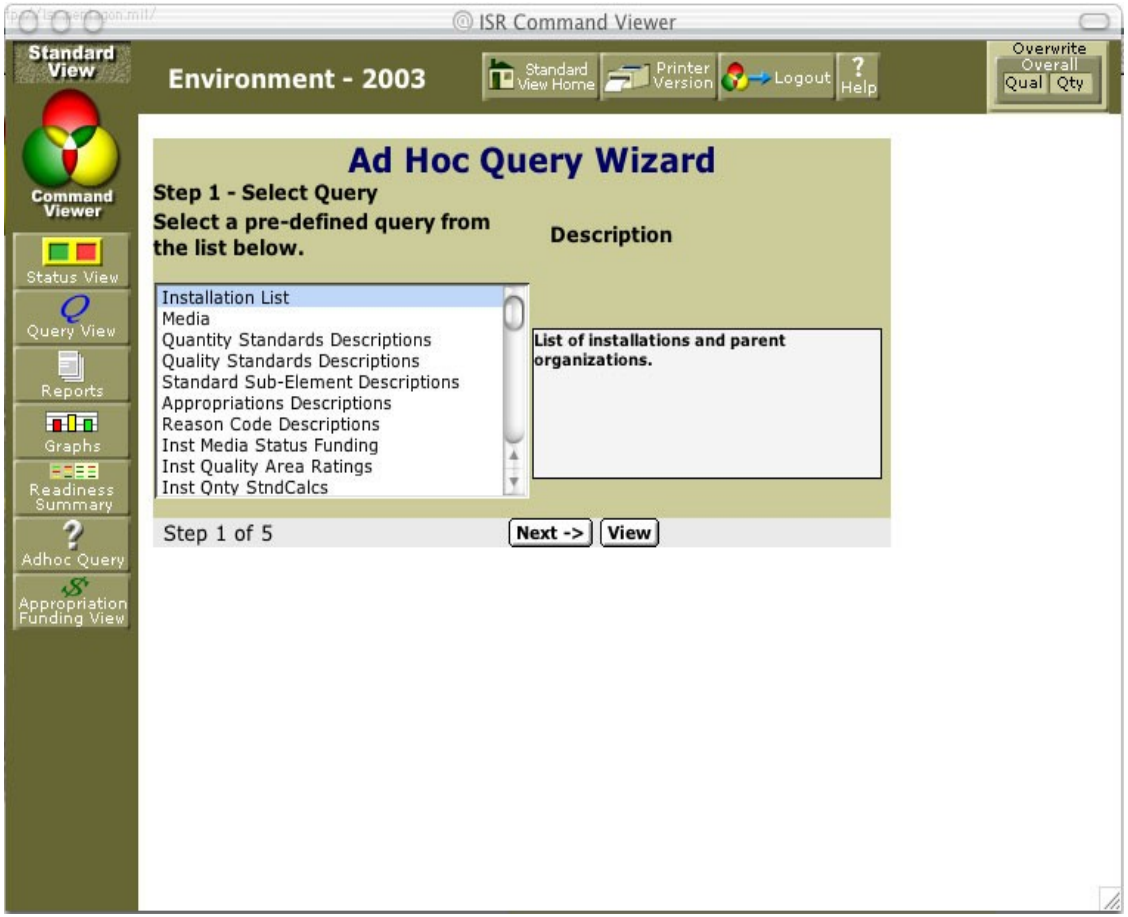
Readiness Summary Report

The Readiness Summary is a graphical chart that displays the Pillar and Media ratings for a selected organization.



Ad Hoc Query

- **Analysis tool is available, but the data that user's can extract is limited to User's organization and subordinate organizations' data**
- **Users can select from a list of predefined queries.**



Appropriation Funding View

The Appropriation Funding View displays funding information for selected appropriations grouped by Pillar and Media.
